2025 Operating Millage Quick Facts

VOTE Tuesday, May 6, 2025
On or Before

1

A homeowner's primary residence is exempt from this millage.

2

The Operational Millage brings over \$4 million into our General Fund budget; that is over 13% of the total district's budget.

3

Without this funding, the district would sink to one of the lowest per-pupil general fund revenues in Michigan.

4

The Operational Millage is part of the General Fund, which is used for **daily operations**. This money pays for staff, utility bills, classroom supplies, busing, etc.

5

This is **NOT A BOND** proposal. This millage would not fund any school construction, renovations, or turf field projects.

6

If the Operational Millage Renewal does not pass, the district would need to cut over \$4 million from the budget. A 13% cut in daily expenses would likely result in reductions in almost all programs and staffing areas.
