

Whitehall District Schools stands against racism and the distressing acts of violence and disrespect inflicted upon Black people. Whitehall District Schools is committed to active planning, purposeful conversations, and specific actions to address racial injustice. We support human kindness and want a better world for all of our students and families.

Together we must help our students understand that each of them are valued and important at home, in school, and in our community. Black lives, voices, contributions, and achievements matter and give us hope for a better tomorrow.
